EDUCATION

Bachelor of Technology

Delhi Technological University

2022-2026

CGPA : 7.40

Class XII

Indraprastha Convent School

2020-2021

%age : 85.8

Class X

Indraprastha Convent School

2018-2019

%age : 90

SKILLS

- Language : C++, Python
- Data structure and algorithm
- Html, CSS, JavaScript
- React , API handling, React-Redux
- Oops , Operating System
- Firebase : Authentication , Firestore Database

PROJECTS

Bankist : Front-End Development

- Developed a Front-End web application with a sticky navigation bar featuring functional operations, including testimonials and an account-opening button
- Implemented lazy loading for images to enhance performance and user experience in the gallery section.
- Developed a prototype for a banking application, showcasing core functionalities

MaptyApp : Front-End Development

- Integrated Google Maps API in a JavaScript-based project for location tracking and interactive map display.
- Developed a form to log running and cycling activities, improving user engagement and tracking.
- Implemented local storage for activity data persistence, enhancing the UI with VS Code emojis for better visualization.

DisneyPlus Hotstar Front-End Clone

- Dynamic UI Components: Built an interactive homepage with a navbar featuring Disney logo and Google Firebase authentication for seamless user login, alongside a react-slick slider for movie thumbnails.
- Content Sections with Hover Effects: Implemented recommendation, "New to Disney+," and trending sections with thumbnail-to-video transitions on hover, enhancing user engagement.
- Data Integration and Navigation: Fetched dynamic content from Firestore database and utilized React Router for smooth navigation between login, home, and detail pages.
- Leveraged Styled Components for modular, reusable CSS, ensuring a responsive and visually appealing interface consistent with the Disney+ Hotstar design.

ACADEMIC ACHIEVEMENTS

- 300 dsa question solved across all platform
- Proficient in JavaScript and CSS, with hands-on experience in building interactive

Other Information

- Excellent in effectively communication technical challenges
- Ability to quick learn new technologies
- Good in problem solving and complexity analysis
- LeetCode , GeeksforGeeks, CodeStudio, Github
